AIR SHIELD

Clean air. Clear breath. Everywhere you go.

THE BLEND

Air Shield brings together six essential oils selected for their complementary aromatic characteristics. Cineole-rich botanicals provide fresh, penetrating notes, while cooling mint, bright citrus, and herbaceous undertones create a layered, invigorating aroma.

The result is a carefully balanced formulation that combines freshness, intensity, and aromatic depth without relying on synthetic fragrance.*

Air Shield is a refreshing essential oil blend created to bring respiratory-focused aromatherapy into everyday life. Its crisp, cooling herbal aroma provides an invigorating sensory experience that encourages a feeling of freshness, clarity, and renewed comfort. Thoughtfully formulated for those who appreciate purposeful aromatherapy, Air Shield offers a refreshing way to support daily respiratory wellness.

Whether navigating crowded environments, traveling, or simply refreshing the atmosphere at home, Air Shield offers an aromatic experience that feels especially welcome when the air seems heavy or stale. Its distinctive cooling character promotes a sense of openness and freshness, making it a valuable addition to personal wellness routines throughout the day.

Versatile and easy to incorporate into daily life, Air Shield can be enjoyed through personal or home diffusion or applied topically when properly diluted. From busy workdays to quiet moments at home, this blend provides a convenient way to enjoy refreshing, respiratory-focused aromatherapy wherever life takes you.*

AIR SHIELD FEATURES:

- Six complementary essential oils
- Crisp, cooling botanical aroma
- Respiratory-focused aromatherapy
- Personal and home diffusion
- Aromatic and diluted topical use

Air Shield combines distinctive botanical freshness with practical versatility, offering multiple ways to incorporate purposeful aromatherapy into everyday wellness routines.

FUNCTIONAL CONSTITUENTS

1,8-Cineole (Eucalyptol)	A naturally occurring constituent found in Ravintsara and Eucalyptus Radiata. Known for its distinctive fresh, penetrating aroma, 1,8-cineole is widely studied for its respiratory-related properties and is traditionally associated with refreshing, respiratory-focused aromatherapy.*
Menthol	A naturally occurring constituent of Peppermint, recognized for its characteristic cooling sensation. Menthol creates a refreshing aromatic experience and can contribute to the perception of easier, more comfortable breathing.*
Thymol	A naturally occurring constituent of Thyme, valued for its strong herbal character. Thymol has demonstrated antimicrobial activity in laboratory studies and contributes to the distinctive aromatic qualities of botanical blends traditionally associated with respiratory wellness.*

WHAT IT SUPPORTS

- Respiratory-focused aromatherapy*
- A cooling sensation during inhalation*
- The perception of easier breathing*
- Refreshing stale indoor environments*
- A convenient respiratory wellness routine*

AIR SHIELD IN EVERYDAY LIFE

Respiratory wellness is an important part of everyday self-care, whether at home, at work, or traveling. Air Shield offers a practical way to incorporate refreshing, respiratory-focused aromatherapy into familiar routines. Its distinctive cooling aroma can provide a welcome sensory experience in a variety of environments.

Beginning the Day
Start your morning with a brief diffusion session to enjoy a fresh, invigorating botanical atmosphere before the day's activities begin.

During Travel
Whether flying, driving, or staying away from home, a personal diffuser allows you to enjoy Air Shield's familiar aroma wherever your travels take you.

In Crowded Environments
Busy workplaces, airports, and other shared spaces can often feel stuffy or uncomfortable. Personal aromatherapy provides an opportunity to enjoy a refreshing botanical aroma without scenting the surrounding environment.

Refreshing Indoor Spaces
Incorporate Air Shield into short sessions with your home diffuser when indoor air feels stale or heavy, creating a fresher, more inviting aromatic atmosphere.

During Seasonal Changes
Shifting weather and changing seasons can make respiratory comfort feel especially important. Air Shield offers a cooling aromatic experience that complements everyday wellness practice.*

MAKING AIR SHIELD PART OF YOUR ROUTINE

A consistent aromatherapy routine doesn't have to be complicated. Air Shield can be incorporated into personal diffusion, brief home-diffusion sessions, or appropriately diluted topical applications according to individual preferences.

Whether you're preparing for a busy day, traveling, or enjoying time at home, Air Shield provides a familiar botanical experience that makes respiratory-focused aromatherapy simple and accessible.*

USAGE SUGGESTIONS

AROMATIC	• Add 2–3 drops to a personal diffuser and inhale slowly. Ideal for travel, crowded environments, or everyday use.* • Diffuse for up to 15 minutes per hour in a well-ventilated space, following your diffuser's instructions.*
TOPICAL	• Dilute with an appropriate carrier oil before applying to skin. Do not apply undiluted. Patch-test before broader use.*

CAUTIONS

- Safety Group 2: Generally regarded as safe when properly diluted and used as directed with children over the age of 3 years, and while pregnant starting in the 2nd trimester.
- Keep out of reach of children and pets.
- Store in a cool, dark place. Do not heat.
- Do not use if the seal is missing or broken.
