## product summary

BodyBeet Max is a proprietary blend meticulously formulated to support heart health and enhance energy levels. Central to this formulation are beets, which are rich in nitrates known to improve blood flow and cardiovascular function. Complementing this are hawthorn berries, a traditional heart tonic revered for their ability to strengthen the heart and improve circulation. Together, these ingredients create a powerful synergy that promotes overall heart health.\*

What sets BodyBeet Max apart is its inclusion of Capros®, a patented natural botanical extract derived from the edible fruits of Amla (Phyllanthus emblica). Capros® is clinically proven to support healthy blood vessels, reduce oxidative stress, and enhance nitric oxide production, further boosting cardiovascular health and vitality.\*

With its unique combination of science-backed ingredients, BodyBeet Max not only supports the heart but also provides sustained energy, making it an excellent choice for those seeking a natural way to enhance their daily performance.\*

## ingredient highlights

- **Beets:** Packed with nitrates, which the body converts into nitric oxide, a compound that helps relax and widen blood vessels. This improved blood flow can lower blood pressure, enhance circulation, and support overall cardiovascular health, making beets a powerful ally for maintaining a healthy heart.\*
- **Hawthorn Berry:** Well-known for their cardiovascular benefits, particularly their ability to strengthen the heart and improve blood circulation. Rich in antioxidants, these berries help reduce inflammation and support healthy blood pressure, making them an excellent natural remedy for promoting overall heart health and vitality.\*
- **Capros®:** A patented extract derived from Indian gooseberry (Amla) that offers a range of health benefits, particularly for cardiovascular health. Clinically proven to support healthy blood vessels and improve circulation, Capros® helps increase nitric oxide production, which plays a crucial role in maintaining healthy blood pressure. Additionally, its powerful antioxidant properties help reduce oxidative stress, protecting the heart and promoting overall cardiovascular wellness.\*
